

AREA II CLASSIFICATIONS

CLASSIFICATION I

The below listed individual classifications under the jurisdiction of the Operating Engineers, when put into use, must be manned by an Engineer and/or Crew as indicated. The listing of the below machines is in reference to all types and models regardless of motor power or operating procedures. When the employer determines assistance is needed, it shall be an Apprentice Engineer/Oiler.

*Apprentice Engineer/Oiler Required

** Requires two major operators, but no Apprentice Engineer/Oiler

Asphalt Plant Operator

Athey Loader

Auger – truck or tractor mounted

Auto Grader (CMI or similar)

Backhoe

Backhoe Case or similar type with 180 degree swing

Backhoe – 100,000 lbs. and under with 360 degree swing

*Backhoe – Over 100,000 lbs. with 360 degree swing

Back-filling Machine

*Batch Plant when conveyors are used for direct feed

Batch Plant

Bulldozer

Cablelayer

Cableway

*Caisson Drill

**Central Mix Plant

Compactor with blade

[CRANES – See following table]

Crushing and Screening Plant

*Derrick – Traveler (self-propelled)

Derrick (all types) (when assistance is needed it will be an Apprentice Engineer/Oiler)

*Derrick Boats

*Drag Line

*Drill – Davey or similar type

*Dredge

*Drill – Core (truck or skid mounted)

Elevator (new buildings)

Engineer – Lead or Assistant *Additional \$0.50 per hour*

Engineer Maintenance (mech. daily rated) (refer Article XII, Section 30)

Engineer Maintenance

Excavating Equipment (all other)

Forklift – lull or similar

**Franki or similar pile driver

*Gradall (other than remote control or track)

Gradall – Remote Control

Grader

Grader – Elevating

Greaser Equipment (head)

*Helicopter (when used for erection purposes)

Helicopter hoist operator (when used for erection purposes)
Hoist (2 drums or more in one unit)
Hoist hod (2 cages up to 10 floors)
Hoist hod (2 cages over 10 floors)
Hoist – single cage with Chicago boom attached
Hoist (50 ft. or over) (stacks, stoves or furnaces)
Hoist (slip form jobs)
Hydraulic Boom Truck
Jumbo Operator
*Kocal
*Koehring Scooper
Locomotive
*Metro Chip Harvester or similar type
**Mix Mobile or similar type (with self-loading attachment)
*Mix Mobile or similar type
Mixer Paving
Mucking Machine (tunnel)
Multiple Bowl Machines
Paver Asphalt (spreader)
Pile Driver (sonic or similar type) (when assistance is required it will be an Apprentice Engineer/Oiler)
Post Driver - Guard rail (truck mounted or skid type)
Pumpcrete – Mobile or similar type
Pumpcrete or similar type (not self-propelled)
Pumpcrete machine operator (Stationary)
Scoop (single bowl) (self-powered and tractor drawn)
*Shovels (all types)
Slip form pacer (CMI or similar)
Spreader – concrete, asphalt & stone
Tire repairman
Tower Mobile (hoisting or lowering material)
Tractors – boom mounted (all types)
Tractors (all types with hydraulic backhoe attached)
Trencher
*Tug Boat
Vermeer Saw
Welder (repairman)
*Whirley

CRANES

Crane – Overhead
Crane (carry)
*Cranes Mobile (any type 15 ton or over placed on any building structure) *Additional \$0.25 per hour*
*Cranes – Rough Terrain and similar over 50 ton (50 ton and under requires no Apprentice Engineer/Oiler) *With jib Additional \$0.25 per hour*
*Cranes – Hydraulic self-contained Wagon Crane (under 50 ton requires no Apprentice Engineer/Oiler)
*Crane - Hydraulic Truck Crane 50 Ton and Over (50 ton and under requires no Oiler)
*Cranes (excluding overhead) (Truck, Crawler or Pedestal type)
Cranes Tower (stationary) (climbing type) (Use of Apprentice Engineer/Oiler to be discussed at pre-job)

*Apprentice Engineer/Oiler required

Notes: When the tip of the boom or jib of any crane exceeds 101 feet, the operator shall receive an additional \$0.50 per hour for each additional 50 foot increment. (Truck, Crawler or Pedestal type)

All crane operators must be CCO certified by the National Commission for the Certification of Crane Operators (NCCCO) as a prerequisite for referral.

CLASSIFICATION II

The below listed individual classifications under the jurisdiction of the Operating Engineers, when put into use, must be manned by an Engineer and/or Crew as indicated. The listing of the below machines is in reference to all types and models regardless of motor power or operating procedures. When the employer determines assistance is needed, it shall be an Apprentice Engineer/Oiler.

Ballast Regulator
Boat – material or personnel carrying (powered)
Boat – job work (inboard or outboard)
Boiler
Boring Machine
Broom power (except push type)
Compressor – single or with any one of the following: Air Tugger, Air Pump, Gunit Machine, Sand Blasting Machine
Concrete belt placer
Conveyor 1-4 units (regardless of power used)
Conveyor more than 4 units (when set up, moved or operated)
Curb Builder (self-propelled)
Forklifts (ridden or self-propelled)
Form Line Machine
Hi-Lift (Skid steer or similar)
Hoist (monorail) (regardless of power used)
Hoist – one drum (regardless of power used)
Hoist – hod (buildings 4 floors or more)
Hoist roof (regardless of power used)
Huck machine or similar type
Jack motor hydraulic (single type) power driven
Ladavator
Lift slab machine (hydraulic)
Mixer concrete (regardless of power used)
Mixer mortar (over 10 cu.ft.)
Mulching machine
Pavement breaker (self-propelled or ridden)
Pin puller (powered)
Pipe cleaning machine
Pipe dream
Pulverizer
Pump (regardless of power used)
Roller
Refrigeration Plant
Ross carrier (or similar type)

Saw (concrete)
Seeding machine
Soil stabilizer (pump type)
Spray cure machine (power driven)
Spreader Shoulder (side delivery attachment)
Steam Jenny or similar type
Stone crusher
Stone spreader (self-propelled)
Syphon (steam or air)
Tie tamper (multiple heads)
Tractor (farm when used for landscaping)
Tractors (when used for snaking and hauling)
Truck (winch) (when hoisting and placing)
Tube finisher (CMI or similar type)
Tugger
Water blaster
Welding machine
Well point systems

CLASSIFICATION III

The below listed individual classifications under the jurisdiction of the Operating Engineers, when put into use, must be manned by an Engineer and/or Crew as indicated. The listing of the below machines is in reference to all types and models regardless of motor power or operating procedures. When the employer determines assistance is needed, it shall be an Apprentice Engineer/Oiler.

Brakeman
Crane Truck Oiler & Fireman
Deck hand
Elevator (Alterations & remodeling all commercial building)
Helicopter Signalman (if needed and not in conflict with other trades)
Mechanic Helper
Oiler
Oiler – truck crane 50 ton up to but not including 100 ton *Additional \$0.25 per hour*
Oiler – truck crane 100 ton & over *Additional \$1.00 per hour*

CLASSIFICATION IV

The below listed individual classifications under the jurisdiction of the Operating Engineers, when put into use, must be manned by an Engineer and/or Crew as indicated. The listing of the below machines is in reference to all types and models regardless of motor power or operating procedures. When the employer determines assistance is needed, it shall be an Apprentice Engineer/Oiler.

Chainman
Instrument Man
Party Chief
Rodman
